

1. Write down the steps to design a frame by frame animation?

Ans- To do frame by frame animation follow the steps:

i) Draw a star on the stage with the help of polygon tool.

ii) Click on keyframe ~~text~~ dot in Layer-1. The animation will begin from this particular frame.

iii) Click on the Insert > Timeline > Keyframe. This will insert a keyframe in frame 2 with a copy of the star.

iv) Using the Selection Tool, make a slight change in the position of the star towards the right side of the stage. Change its colour (ex-Orange) using Fill colour option.

v) You can continue to insert keyframes by repeating the steps till you can reach the desired frame.

vi) To preview the animation by clicking on the Control > Test movie > In ~~the~~ Animate.
