1) How to draw a curve?

ans) → After drawing a line, click on the selection tool.
→ Move the pointer on the line. When the pointer changes to arrow with curve symbol, click and drag the line to draw a curve.
→ Release the mouse button when the curve is made.

2) Pen tool is used for which purpose?

ans) Pen tool is used to draw precise paths in the form of straight lines or smooth flowing curves.

3) How many types of brush tool?

ans) There are 5 types of brush tool.

4) How to draw star in Animate CC.

ans) → Select the Polystar tool from the Toolbox.

→ In the property inspector, click on the options button under the Tool settings option. You will get the settings dialog box. Click on the drop down list of Style option and select the Star style.

→ Enter the value from 3 to 32 in the number of sides text box.

→ For the star point size, enter the number between 0 and 1 to specify the depth of the star points. A number closer to 0 creates deeper points. For drawing a polygon, you do not need to change the settings.

→ Click OK to close the Tool Settings dialog box.
→ Click and drag the pointer on the stage to draw a star.

→ Similarly, you can draw a polygon by selecting Polygon option in the Style text box.
