

WORKSHEET - ch - 8 - Geometry

Q1) Choose the correct answer and fill in blanks.

a) A triangle has 3 vertices.

i) 3

ii) 4

iii) 5

b) The square has 4 equal sides.

i) cuboid

ii) cube

iii) square

c) A hexagon has 6 sides.

i) triangle

ii) rectangle

iii) hexagon

Q2) Write TRUE for correct answer and FALSE for wrong answer.

i) A rectangle has 2 equal diagonal (T)

1) A square has 2 flat faces. (It is drawn with straight lines by using a ruler.)

2) A is directed

3) Name the shapes

1 - triangle 2 - square

4) Identify the shapes of given objects.

5) Circle the object having

1 vertex - cylinder, cone, cube
one flat face - sphere, cylinder, cube

6) Circle straight line on curved line

C - curved line Z - straight line

Count and write the correct number

Sloped lines 9

Horizontal lines 8

Vertical lines 9

Triangle 9

Rectangle 11

Circle 6
