Light Energy

Reflection Homework

- 1) The returning of light in the same medium after striking a surface is called the reflection of light. When light falls on an object a part of light is reflected.
- 2) The laws of reflection are:-
a) The angle of reflection = the angle of incidence.
b) It does not have a shadow.
- 3) The primary colours are those colours from mixing which we can get the white light. They are red, green, blue.

4) <u>Real Image</u>	<u>Virtual Image</u>
It can be obtained on a screen.	It cannot be obtained on a screen.
They are always inverted.	They are always erect.
Formed in front of mirror.	Formed behind of mirror.
