

## Economic People as Resources (Home work)

- 2)
  - (i) Yes, the literacy rate increased
  - (ii) 2011
  - (iii) Because the population of male is high.
  - (iv) Lack of resources.
  
- 3) Yes classification of economic activities into primary, secondary and tertiary sectors is useful as it helps in estimating the relative importance in growth of GDP.
  
- 4) Adults around us are engaged in tertiary activities like, they are engaged in softwares, banking etc. that comes under tertiary activities.
