

PITCHER PLANT

VENUS FLY TRAP  
PLANT

## Pitcher plant

A plant with a deep pitcher-shaped pouch that contains fluid into which insects are attracted and drowned. Nutrients are then absorbed from their bodies by the plant.

## Venus fly trap plant

A plant which trap a insect in its mouth is called as venus fly trap plant. Its mouth is made of two hinged lobes at the end of each leaf. On the inner surfaces of the lobes are hair-like projections called trichomes that cause the lobes to snap shut when prey
