Dear meenakshi,

Hope this letter finds you in good condition. I was seriously scared hearing about your road accident the other day. Hope you are all fine now.

Listen, it's not too bad to have a road accident and be left with only a few limbs. There are people who also had had their limbs amputated because of those roads. We need to panick or give petty complaints; however do remember to eat as much vegetables as possible. I pray to god for your speedy recovery and so do we other friends. Be careful and take care of yourself all the time and also take the medicines, change the stitches, dressing, etc.

Convey my greetings to uncle and aunt

Kavita
