

Hw

Bamboo Basket

1) It's the fastest growing plant on this planet
Bamboo is actually a grass and
not a tree. ~~This~~

2) Therefore it grows rapidly and can
produce fully mature bamboo plants
in 3-5 years.

3) It is useful for making chairs, and
~~best~~ basket ~~at~~

4) Bamboo produces 30% more oxygen
than trees and it plays a ~~critical~~
critical role in maintaining the
balance of oxygen and carbon dioxide
in the atmosphere
