

Homework

Q1. Some similarities between plant cell and animal cell.

→ Plant cell

Cell membrane

Cell nucleus

Mitochondria

Animal cell

Cell membrane

Cell nucleus

~~Mitochondria~~ Mitochondria.

→ Both are eukaryotic cells.

Q2. List some of the differences between the plant and animal cell.

Plant cell

Have large rigid shape

Have plastids

Do not contain centrioles

Animal cell

Generally smaller, without a rigid shape.

Do not have plastids

contain centrioles.
