

ASSIGNMENT

Q. How do organisms reproduce?

Ans. Organisms reproduce by two methods :

(a) Asexual Reproduction (b) Sexual Reproduction

- Uniparental

- Bi-parental

- No gametogenesis required

- Reproduction maturity reqd.

- Occurs in lower forms of organisms

- Occurs in advanced form of organisms.

- Only mitosis is carried out and meiosis doesn't take place in Asexual Reproduction.

- Recombinant.

- Both Mitosis and meiosis take place.
