It was last winter vacation. I have to participate in a Song competition organised by a welfare society. I was given only 4 days for preparations but I never felt afraid of it. I had completely committed myself for this. I gave my full attention and focused only for the song preparation without T.V. <sup>watching</sup> Playing, lastly when <sup>watching</sup> I gave my performance at the stage everyone appreciate me and I had secured 2nd prize. It is a great success for me in my life.
