

## Civics - HW

### The Constitution and the need for Laws

1. A constitution is a set of rules, laws and principles according to which a country is governed.
2. Legislature, Executive and Judiciary are 3 organs of Govt.
3. Dissent is an opinion, sentiment of non-agreement/opposition to a policy enforced by govt.
4. Our constitution established the rule of Law in India, i.e violation of these laws was made punishable and no one was above the law. So, if anyone broke the law, he or she would be liable to be punished - irrespective of caste, class, creed or gender.
5. If a law is enacted against the principles of the constitution, then the judiciary has the right to declare it null and void (abolish it).
