Loving Father,

I am well & happy and I pray
to god you are well & there.

First of all I wish you a year
happy father's day. I want to
thank you for all your precious
efforts you have made for me. I
know you always given all your
love to me. You have made
sure that I never feel
incomplete in life. I want to say
and mention that you have been
the best dad ever. You have made
possible to let me see huge dreams
and how to achieve them. Thank you
for letting me know that no dream is
small and no dream is impossible.

I wish everyone in this world could have a dad like you. Thank you for motivating me and making me understand the meaning of love. I can see, the best example is you and mom at home. I just wish you good health and prosperity. This father's day I promise that I will surely strive to be better person and never let you down. I hope to make you proud.

Take care of yourself and mom. Give my love and regards to everyone.

With lots of love,
A. Som. Puda
