 4) Ans) Microphone
 5) Ans) From beginning
 6) Ans) Loop until stopped

- B) 1) Ans) True
 2) Ans) True
 3) Ans) False
 4) Ans) False
 5) Ans) True
 6) Ans) False
 7) Ans) False

- C) 1) Ans) Action button

2) Ans) Click on new slide drop down menu on home tab select slide from outline option.

Section B

- A) 1) Ans) Ctrl + D
 2) Ans) Animation
 3) Ans) WAV
 4) Ans) 

B) 1) Ans) The ability to move objects like text, graphics, charts, logos etc on the slide is called Animation. It can help make a powerpoint presentation more dynamic and help make information more memorable. You can also add sound to increase the intensity.

2) Ans) Transition is a tool in Microsoft Powerpoint that creates movement in the slides as one slide changes to another during a presentation.

- 3) Ans) ★ Select the slide to insert the recorded sound.
- ★ Click on the Audio drop-down arrow in the Media group on the Insert tab.
 - ★ Choose the Record Audio option from the drop-down menu.
 - ★ The Record Sound dialog box appears. Type a name for the audio recording if you want.
 - ★ Click on the Record button to start recording. When you have finished recording, click on the Stop button.
 - ★ When you are done, click OK. The Audio clip icon appears on the slide denoting that the audio file has been embedded in the slide.
- 4) Action buttons are built in button shapes you can add to a presentation & set to link to another slide, play a sound, or perform a similar action. When someone clicks/hovers over the button the selected action will occur. Action buttons can do many of the same things as hyperlinks.

Section A

- 1) The appearance of Date and time on a worksheet depends on the Format applied to the cell.
- 2) To repeat most of the commands or actions, press the Ctrl + F4 function key.
- 3) You can minimize the worksheet by pressing the F4 key combination.
- 4) The Enter and Close buttons are present on the Formula Bar.
- 5) When you use F2 key for modification, the insertion point appears at the End of the cell content.
- 6) To copy the data, the Ctrl + C key combination can be used.
- 7) The default value for column width and row height in a worksheet are 8.43 and 15 points respectively.

B) Copying refers to placing data from one place to another. F

- 2) Ctrl + A key combination is used to select a row. F
