## Paragraph on tiger

Tigers have ~~become~~ become a very important

Tigers is a very large, powerful wildcat

with a striped ~~and~~ coat. It is said that

two tigers have not the same pattern

of stripes, in the same way two humans

have not the same fingerprints.

Although a tiger's stripes look colorful

and bold they actually help the animal

hide, because the stripes blend in

with the tall plants in its environment.

It has a long tail. ~~Its~~ Its padded

~~feet~~ feet have sharp claws. There are

Several different races of tiger,  
ranging from the small Bali race to  
the Siberian the larg cat in the world  
world. All tiger are endangered and  
some of the races are likely to  
extinct.
