

HOMEWORK

Q1. Classification of forces are contact forces, Non-contact forces, gravitational force, Electrostatic force, magnetic force.

Q2. The force which acts on bodies by making an actual contact, is called contact force. ex- muscular force, frictional force, force of repulsion, and force of tension.

Forces which act on bodies with no contact with them are

called non-contact forces.

Q4. Between two charged bodies at a distance either repel or attract each other. Unlike charges attract while like charges repel.
