

HW

Q How do you think a mountain range can influence a country's climate?

Ans A mountain range can influence a country's climate by different ways

i Himalayas range act like a wall on our countries northern ~~land~~ borders. It protect cold winds blowing from central Asia.

ii The Himalayas stop the

monsoon winds from going further north and thus bring heavy rainfall to the northern plains of India.

Like this way a mountain can influence a country's ~~also~~ climate.
