

Q Write the location of master gland. Why it is named so?

ans → The master gland is the pituitary gland which is located at the base of brain.

Pituitary gland is named as master gland because it controls the function of many of the other endocrine glands.

Q Draw the flowchart of the hormones secreted by Pituitary gland.

③ Write in a tabular form name of gland, location and hormones secreted by them.

Gland	Location	Hormone
Thyroid	On either side of wind pipe, below larynx.	Thyroxine
Adrenal	Like a cap over kidneys	Adrenaline
Pancreas	Behind the stomach	* Insulin * Glucagon
Pituitary	Below the brain	* GH * FSH * TSH
