

How

Write a paragraph on "It couldn't be done?"

The poem "It couldn't be done" narrated by Edgar Albert Guest shows that there is no work in the world which can't be done. Even if they were hard, very hard ~~that~~ but it is not impossible. Any way we can use to do that hardest work but it can be done. It is never impossible. Many people may be familiar or formal sometimes say that "this can't be done by you", "this will affect future" etc. But we shouldn't mind them and try it as every thing is possible. We have to just buckle and remove all the quiddits and stops and move to our target with strong intension.
