

Q. Define surface area.

Ans- The ^{total} amount of surface ~~is~~ occupied by an object is called its surface area or simply the area.

Q. Explain units of area.

Ans- The S.I. unit of ~~met~~ area is square metre, the symbol of square metre is m^2 . The larger units of area are ~~the~~ decametre square (are), hectare and square kilometre ~~metre~~.

$$1 \text{ dam}^2 = 100 \times 100 = 10,000 \text{ m}^2$$

$$1 \text{ decametre}^2 = 100 \times 100 = 10,000 \text{ m}^2$$

$$1 \text{ hectare} = 1000 \times 1000 = 10,00,000 \text{ m}^2$$

$$= 10,000 \text{ m}^2$$

$$1 \text{ square kilometre} = 1000 \times 1000$$

$$= 10,00,000 \text{ or } 10^6 \text{ m}^2$$

The smaller units of area are square decimetre, square centimetre and square millimetre -

$$1 \text{ dm}^2 = 10^{-2} \text{ m}^2 \text{ or } 100 \text{ cm}^2$$

$$1 \text{ cm}^2 = 10^{-4} \text{ m}^2 \text{ or } 100 \text{ mm}^2$$

$$1 \text{ mm}^2 = 10^{-6} \text{ m}^2$$

TEST YOURSELF

A. Objective Questions

3. Column A

Column B

- | | |
|-------------------------------|--------------------|
| a) Length of a housing plot | i) Clock |
| b) Breadth of a book | ii) Beam Balance |
| c) Mass of an apple | iii) Thermometer |
| d) Period of time for a study | iv) Measuring tape |
| e) Temperature of a body | v) Graph paper |
| f) Surface area of a leaf | vi) Metre ruler |
-

4. Select the correct alternative!

a) The symbols of degree celsius is:

i) $^{\circ}\text{C}$

b) 10mm is equal to:

ii) 1cm

c) The amount of surface occupied by an object is called its:

iii) area

d) A metric ruler is graduated in:

iv) mm

e) A thermometer is graduated in:

v) $^{\circ}\text{C}$
