

Poster save the earth

Effects of excessive waste
- waste material causes pollution

- Poor living conditions

What you can do?
- Pollution causes diseases

- The environment is in danger

- animals and birds are affected

Reduce waste

1 Buy less

2 Use less

3 conserve what you have

Reuse Things

- ① use things more than once
- ② share things
- ③ repair and use
- ④ use cloth bags instead of plastic bags.

Recycle Things

- ① separate different types of waste.
- ② recycle to get new things out of the old.
