Q Draw the pictures of some products made of bamboo and write in five sentences how is bamboo helpful for the environment. Do it in your project record.

(Ans) - i) Bamboo helps lower the light intensity and protects against ultraviolet rays.

ii) Bamboo plants reduce up to 35% carbon dioxide in the climate and deliver more oxygen.

iii) The strong roots of bamboo plants makes the soil more stable and prevent landslides.

iv) Bamboo helps protect biodiversity, save and protect the species by providing both homes and food.

v) Bamboo can also help protect the earth from potentially harmful chemicals.
