Write a paragraph on Rainy Season

After the Summer Season comes the 'rain Season'. During the month of July and August, there is a strong rainfall. In the rainy season, black decreases on the sky prevail at all times. The river, drain, and the pond is all filled with water. It seems as if the fate of dry land has emerged. The earth wears green clothes. Frogs Scramble. Snakes, Scorpions, and insects also come out in large numbers. I like the rainy Season the most. This is my favourite and best seasons of all four seasons, a very hot seasons of the year. Due to too much heat, hot air and skin problems, I get very restless in the Summer Seasons.
