

3. Study the picture given below. Write a story or an account of what the picture suggests to you. Your composition may be about the subject of the picture or you may take only the suggestions from it. However, there must be a clear connection between the picture and your composition :

Space for Answer

Topic pollution

Pollution is the main reason for a dirty environment. As the smoke from the factory, acid and wastewater from the factory smoke from the cars. House waste helps the environment to become dirty. People are washing clothes putting waste washing animals and due to the ^{water} animals are dying. Pollution is of different types like air pollution, water, noise soil pollution and etc. are the main reason for the pollution. We have to use the other preventive things to make a ^{new} innovation to reduce the use of things like the waste we can make any crafts by the waste.
