(5) Mr. Sanjay withdrew ₹27,500 from his account in the bank. He asked for the money in ₹100 notes. How many ₹100 notes did the bank give him.

Ans- Amount of money Mr. Sanjay withdrew in the bank = ₹27,500

Amount of money he asked = ₹100 notes

$$\begin{array}{r} 275 \\ 100 \overline{) 27,500} \\ \underline{-200} \\ 750 \\ \underline{-700} \\ 500 \\ \underline{-500} \\ 0 \end{array}$$

∴ The bank gave him 275 of ₹100 notes.

(6) Mr. Gandhi withdraws ₹12,400 from his account. He kept ₹4,200 aside and divided the remaining money equally among 5 family members. How much money did each member get?

Ans Amount of money Mr. Gandhi withdraws from his account = ₹12,400

Amount of money he kept aside = ₹4,200

Divided remaining money = 5 family

$$\begin{array}{r} \text{₹ } 12,400 \\ - \text{₹ } 4,200 \\ \hline \text{₹ } 8,200 \end{array}$$

Divided remaining money in 5 family = $8200 \div 5 = Q=1640 R=0$

$$\begin{array}{r} 1640 \\ 5 \overline{) 8200} \\ \underline{- 5} \\ 32 \\ \underline{- 30} \\ 20 \\ \underline{- 20} \\ 0 \end{array}$$

∴ ₹1640 each member get.
