Subject : Evoking awareness Towards
Solar energy.

Sir,

Through the columns of your reputed newspaper, I wish to make people aware of the growing need and demands of solar power. We all know our hearts is showing signs as that of a patient in declining health and it's due to excessive pollution on our planet. Man has a desire to live a luxurious life and for that he is over consuming electricity. He doesn't realise that over used

Would exhaust the measure. We must conserve electricity, which is the need of the hour. But this conservation can only be done if we start using solar power systems. Various kinds of solar systems like solar cookers, solar lanterns, solar heating and cooking systems, solar water heaters etc. are available in the market.

These solar systems are non-polluting. They are economical and are available in different sizes. So, I request you to publish this letter in your printing electricity bills. Public must pay attention to the dire need for switching over to solar energy.

Thanking you

Yours sincerely
Ajay Anjumani
