14 October 2021

The Editor  
Hindustan Times  
Delhi

Subject :- Importance of following Covid 19 protocol after lock down.

Sir

Through the columns of your reputed newspaper, I want to make the people aware of following Covid-19 protocol after the lockdown. As the government of India has already declared that after 20 October, 2021 the lockdown would open but this doesnot mean that the covid has ended. So, in order to be safe we all have to follow the protocols after the lockdown also.

We need to do only those things which we were doing during the lockdown. Hand sanitizer should be

used frequently. All should keep three metres of distance and moving outside frequently should be stopped and for useless things also. These things seems to be difficult but by following them we are not only saving our life but also we are saving our family from covid.

Hope this would make people to follow the protocols and save thousands of lives.

Thanking You  
Yours Sincerely  
Ramesh Tiwari

40. Write an article on the topic, 'Discipline is the key to success.'

### Discipline is the key to Success

For success being disciplined is a must. Discipline includes strong habits that are useful in every situation we face. Becoming a disciplined person helps us in every way.

Discipline means obedience to rules which are framed for the good of an individual. A disciplined man lives an orderly life and is a successful man. If there are no rules, no plan or no order in life then there will be confusion. Without discipline all the constructive activities in the society would come to an end. That's why for success, there should be discipline in life - whether in a family or towards

the nation. The best example is team India who won the world cup with team effort and not with ~~individual~~ individual performances.
