

SAVE THE EARTH
Effects of Excessive waste

- Waste material causes pollution
- Poor living conditions
- Pollution causes diseases
- The environment is in danger
- Animals and birds are affected

WHAT YOU CAN DO

Reduce Waste - By less
- Use less
- Conserve what you have

Reuse Things
Use things more than once
Share things
Repair and use
Use cloth bags instead of plastic bags

Recycle Things
Separate different types of waste.
Recycle to get new things out of the old.
