Dear Biswonath

I am fine and hope same from you. I am writing this letter to thank you for giving support everytime, everywhere. In last final examination I have fall in sick due to fever. You have helped me and came to my house to revise the lessons that have been taught in the class. So I recovered all the chapters that have been taught in the class. That's why I have got 99% of mark in the last examination. Without your help I could not able to pass the exam. You are the best friend in need. I was appreciated with you.

I thank you again for your support to me everytime.

Love yours dearly

My dear Aunty,

I am fine and hope the same from you. I am writing this letter to thank you for giving the wrist watch on my birthday. Yesterday was my birthday, I got many presents. But I liked your present the most. It was a beautiful wrist watch. Everyone liked it very much. In fact, I was in great need of a watch. Time is a very important factor in life. I was often late for school. My teacher fined me many times. It will make me regular. Now I shall reach school in time. I shall make my time table and work according to it.

The watch is a token of your love for me. I will keep it very carefully. I must thank you for this nice gift.

Your loving nephew
