Q.

We often hear of people fighting over religion. Do you think this is right? Give reasons.

Ans- We often hear of people fighting over religion. This is not right because the constitution of India gives its citizen certain fundamental rights. One of them is right to follow any religion. Every one enjoys the right to follow the religion of his or her choice. Everyone is free to choose and practice any religion. The government will not favour any particular religion. India does not have any official religion.
