

far apart.

Q When do we say that liquids are miscible?

Ans When two liquids mixed together and appear as one liquid, they said to be miscible liquids.

Q

HW 15/7/21 Bubbles appear when you open the bottle of soda but not when you open a bottle of mineral water. Why?

Ans Bubbles appear when we open a soda can but when we open a mineral water bubbles doesn't appear ~~doesn't~~ because carbon dioxide is dissolved in soda and it releases out when we open a soda can. But water doesn't have any type of gas present in
