

ODM CONNECT HOMEWORK:

Q1) Compare Organs and levels of the government giving suitable example of each.

Ans) The three organs of the government are:

1. the legislature

2. the executive

3. the judiciary.

The legislature makes laws, the executive enforces them and the judiciary applies them to the specific cases arising out of the breach of law. The three levels of the govt. are:

1. Central government: The central government is the political authority that governs an entire nation. It oversees finance, commerce, national defense, foreign affairs and etc.

2. The state government: The state government oversees affairs within the state borders. It raises income taxes and oversees state welfare programs, etc.

3. Local government: The local government create and enforce local laws, manage services and activities which are adapted to the needs of the community they serve.
