Savannas - Central Africa

H.W

The park near your garden house has a large lawn with grasses growing in it. Can it be called a grassland? Why? Write in notebook.

Ans. The park near our house has a large lawn with grasses growing in it. But we cannot call it a grassland because our farmers used to cut the grasses when they are grown up. But in the grasslands there are no farmers to cut the grasses. That's why we cannot call it as a grassland.
