

HOME ASSIGNMENT

1) Why is the pituitary gland called master gland?

A- Pituitary gland secretes several hormones, some of which regulate the activity of other endocrine glands. So, the pituitary gland is also called as master gland.

2) Make a table of glands, their location, and the hormones they secrete.

A-	GLAND	LOCATION	HORMONE
a)	Thyroid	On either side of the wind pipe, just below the larynx.	Thyroxine
b)	Adrenal	Like a cap over the kidneys.	Adrenaline
c)	Pancreas	Behind the stomach.	Insulin and glucagon
d)	Pituitary	Below the brain.	Growth hormone (GH) Thyroid-stimulating hormone (TSH) and Follicle-stimulating hormone (FSH)
