Q- Write an article on the topic 'Nuclear Family'.

\* The family which consists of fathers, mothers and children is called a nuclear family. In such a family, one can live according to one's will.  
I live in

A- Nuclear Family  
Tanisha

The family which consists of fathers, mothers and children is called a nuclear family. In such a family, one can live according to one's will.  
I live in a nuclear family consisting of my parents, myself and my younger sister. In my family, I enjoy all the facilities such as good food, good clothing, good relation and a good accomodation. It has some advantages. It is free from noise of an extended family. It has become very difficult to bear the expenses of a large family. So, a nuclear family is getting popularized day by day. It has some disadvantages too. One can't ask for help when he/she is in danger.
