When I listened the news, I felt very sad. Dear, friends, you are not coming to school but our Maths teacher is going very fast to complete the chapters. In school, everyone is worried and unhappy for you. And don't get tensed about the classworks and homeworks. I will give everything to you. I wish a speedy recovery for you. I have come to know that your treatment is under a good doctor. Follow all his advices because it is important for your speedy recovery. Take rest and pray God for your health.
