Komal, a mischievous girl _____ loved plants, flowers, birds _____ but did not realize _____ have life _____ one day mother went away _____ asked Komal to look after plants _____ forgot _____ mother came after two days _____ plants in bad shape _____ hungry, thirsty, rebuked Komal _____ realized her mistake.

" Space for Answer

" Plants too have life "

One day there was a mischievous girl, Komal. She loved plants, flowers, birds etc. But she did not realize that plants also are living beings and they too have life. One day her mother went away for some of her urgent works and asked Komal to look after the plants in their garden. But unfortunately she forgot to look after the plants i.e., provide them water in proper time, keeping them in sunlight, fertilizing it regularly and checking the soil is still moisture, she forgot to do these things as she was very much busy in watching TV, playing, doing her homeworks. After two days when her mother came to home and checked the plants she found that the plants were in bad shape, hungry, thirsty, rebuked etc. and it was clear that Komal had not taken care of the plants. Then her mother shown her the condition of the plants and that made her realized her mistake.

Over here we conclude with the "plants too have life"
