

24.6.21

A Bicycle Built for two

1) What did the eel want to do? Why couldn't he do it?

A) The eel was determined to ride on a wheel, but he could not do it because when he sat on the saddle to ride, his tail could only pedal one side.

2) What plan was devised by the neighbours to solve the problem?

A) His neighbour, who was also an eel, said that they could wrap a belt around both their waists and fasten it with a sharp strap. In this manner, each eel could pedal one of the bicycle.

3) Identify your pairs of word from the poem that make minimal pairs?

A) eel - wheel, right - tight, fun - done, ride - side

B) Let us read between the lines

1) What do you understand by the line
That two heads better than one.

A) That two heads better than one means that when two people work together to solve a problem, they are more likely to find a solution, than when one person works alone.

2) What do the fun and the thing refer to in the following?

A) His neighbour, observing the fun, said I think that the thing can be done.

A) In these lines the fun refers to the ~~neighbour~~ neighbour observing of the ambitious young ~~pet~~ pet failing over while attempting to ride the bicycle. The thing refers to the act of riding a bicycle successfully.
