R It is going to be very interesting'

f- Tara, can you wrap the gift by yourself

A or do you need some help from John?

HP is busy decorating the drawing

room

"FLOOD"

PARAGRAPH

Flood is a type of natural hazard affecting humans and natural habitats or even killing them. A flood can also cause severe damage to homes, factories, places in public, etc. Initially, the trees in the forest should not be cut down unethically because they can cause many human disasters, which include ~~for~~ flooding. A flood occurs; therefore, it is not possible to absorb the rainwater in the plant root, so water flows directly.
