## Grasslands of the Temperate Zone

Notes - ~~THE~~ Think And Draw Answer.

- The park near your house has a large ~~D~~ lawn with grass growing in it, can it be called a grassland? Why

Ans- Grassland usually growing in areas like when there is not enough rain to support large plantation or vegetation but not limited enough to cause desert like conditions. So, if the park has naturally growing grass in the area and it is dominant vegetation. Yes, it can be called a grassland.
