A) 1. A moving body slows down or stops on its own due to this force.

i) Gravitational force

ii) elastic force

iii) mechanical force

iv) frictional force

2. This is used to open lids.

i) pulley

ii) lever

iii) Wheel and axle

iv) Inclined plane

3) Tools make work

a) hard

b) easy

c) soft

d) complex

4) This energy comes from splitting of an atom.

a) atomic energy

b) Solar energy

c) Geothermal energy

d) Wind energy

5. In electronic motors ~~electrical~~ electrical energy is changed into this energy

a) mechanical

b) solar

c) wind

d) atomic
