1 Do you think Zeus was right in not giving fire to humankind?

Do you think fire has made humankind powerful?
Give reasons for your opinion.

ans= No, I don't think Zeus was right in not giving fire to humankind. He was being selfish by refusing to impart the knowledge of fire to others. As a powerful being, Zeus had the ability to help out those in need and he refused to do so merely because he was scared that humans would become stronger than him after obtaining fire. I think that fire has definitely made humans more powerful because ~~more~~ most beasts are scared of fire.
