

Maps

① Fill in the blanks.

- ① An atlas is a book of maps.
- ② The ratio of distance on a map to actual distance is known as the scale of the map.
- ③ On a map, high mountains are shown in dark brown.
- ④ On a map, the use of the colour blue shows water bodies.
- ⑤ Shapes or signs used to represent features on a map are called symbol.

⑥ On a map drawn to a scale of

1 centimetre = 100 Kilometres, a distance of five centimetres

on the map means an actual distance of 500 Kilometre

⑦ If north is at the top in a map,

west is to the left

⑧ Match the Columns.

① Arrow marked N on map ② Green

② 1 centimetres = 100 Kilometre

③ plains

④

⑤

(b) Bridge

(c) North Scale
(d) map Scale
(e) Boundary between
two countries

(C) Answer the following questions.

(1) A globe is the most accurate way to represent the Earth. However, we generally use a map rather than a globe to study the Earth.

~~Why is this?~~

~~Ans We generally use a map rather than a globe to study the Earth because -~~

* It is easy to carry a map around.

* A map can show the entire surface of the Earth.

of the Earth at a glance;

* A map can show many numbers or details depending on its

Scale -

② A map of the Earth will have errors in the shape and size of places shown on the map - why is that so?

Ans A map of the Earth will have errors in the shape and size of places shown on the map because we cannot flatten

out the Earth's Surface
and Shows it accurately.

③ How is direction usually shown in
maps?

Ans Usually maps are drawn with
north at the top. Most maps
indicate North with an arrow
marked N. If you know where
north lies, it is easy to
find south, east and west.
If north is at the top, then
south is at the bottom, east

is to the left.

- Q) what do you understand by the term "Scale of a map".

Ans ~~sea~~ Scale of a map shows the ratio between distances on a map to the actual distance on the ground.

- Q) which Standard colours are used in maps?

Ans Standard colours used in maps are:-

~~Red~~ Blue, brown, yellow and green

Deep blue shows deep waters.

Light blue shows shallow waters.

Dark brown shows high mountains.

Light brown shows lower mountains and hills.

Yellow shows plateaus.

Green shows plains and

lowlands.

⑥ What are symbols?

Ans A symbol is a picture or sign used in a map to represent something from the real world.

Colours are also used as symbols.

The key or legend explains what

each symbol stands for -

- a cluster of buildings ←

- industrial location ←

- office + 209 ←

- port ←

- railway station ←

- rail line ←

- bridge ←

- river ←
