

Homework

Q) The Tiger is a national animals but it is endangered so what is being done to protect them. Write an article based on your findings.

Ans) Tigers are among the most endangered animals on earth. The natural population of these beautiful felines that we used to seeing under captivity is disintegrating slowly. That has huge implication for this ecosystem that we inhabit, as tigers have a crucial role to play in the eco system.

To ensure a world with healthy population of wild tigers, we strive to stop the killing

and trafficking of tigers. Conduct scientific research on tigers to help in form conservation strategies. promote tiger friendly policies. Monitor tiger numbers, population trends, and threats to tigers and their habitats.
