The Tiger is a national animal but it is endangered so what is being done to protect them. Write an article based on your findings.

Ans:- Tigers are among the most endangered animals on earth. The natural population of these beautiful beautiful felines that we are used to seeing under captivity is disintegrating slowly. That has huge implications for this ecosystem that we inhabit, as

tigers have a crucial role to play in the ecosystem.

This species, which a century ago was believed to number 1,00,000 the world over, is today reduced to about 3890, according to the world wildlife fund and the Global Tiger Forum.
