Delhi is further away from the equator than Chennai. But summer in Chennai is not as hot as in Delhi. What are the reasons for this?

Ans

Delhi is further away from the equator than Chennai. But summer in Chennai is not as hot as in Delhi, the reason for this is Chennai is nearer to the sea and the winds over the sea is less warmer than the land which makes Chennai less hot in the summer whereas Delhi is far from the sea. So, it is hot in the summer in the comparison to Chennai.
