

Exercise-3 (I)

$$D.6. \text{ No. of people on Saturday} = \begin{array}{r} +1 \quad +1 \quad +1 \quad +1 \\ 26695 \end{array}$$

$$\text{No. of people on Sunday} = \begin{array}{r} +48788 \end{array}$$

$$\text{No. of people witnessed in the two days} = \underline{75483}$$

∴ 75483 people witnessed in the two days

$$7. \text{ Amit purchased a vehicle} = \begin{array}{r} +1 \quad +1 \quad +1 \\ 73425 \end{array}$$

$$\text{He then spent on repairs} = \underline{9085}$$

$$\text{Cost of the vehicle} = 82510$$

∴ The total cost of the vehicle is 82510.

10. No. of people watched semi final = 37594

No. of more people watched the finals = $+14070$

Total no. of people watched the finals = 51664

\therefore 51664 people watched the finals.
