ENGLISH HOME ASSIGNMENT

About Rainy season (100 words)

I love the rainy season, it is my favourite season of the four seasons of India. It comes after the summer season, which is the hottest weather of the year. Due to fierce heat, hot air (dry) and various skin problems, I get very upset during the summer season. However, due to the arrival of the rainy season all the problems are resolved. Rainy season comes in July (Sawan) and lasts for three months. It is auspicious for everyone and it is a lot of fun. This season we take advantage of all the mature mangoes. In the rainy season, we celebrate many festivals in India with full enthusiasm.
