Q. Write an article on friendship.

FRIENDSHIP

(By Komal)

One of the purest relationship is the ~~valuable~~ friendship. A true friend is the one whom we can blindly trust not only while sharing our happy moment but ^{our} sorrows also. Friendship does not have any discrimination on the basis of caste, religion or social ~~and~~ status. It is a bond between two people who meet irrespective of anything and they just have the best time of their lives when they are together. Everything with a friend seems to fun. True friendship lasts till death. Lastly I want to say 'a friend in need is a friend in deed'.

Q. Article on Relationship between inner and outer beauty.

RELATIONSHIP BETWEEN INNER AND OUTER BEAUTY

(By Komal)

It is natural that God made some people naturally beautiful than others in face, colour, body and in physical appearance but this is only the outer beauty that can attract anyone by its features while inner beauty is some thing inside a person, most of the times it does not show up but it exists in person's heart and soul.

The true beauty of a person is not in the face, it is the light in the heart. Outer beauty is something one is born with, while inner beauty is a gift to one's self.
