

1. Write the name of two tropical and temperate grasslands.

Ans- Two tropical grasslands are:

→ Savanna in Central Africa

→ Campos in Brazil

Two temperate grasslands are:

→ Prairies in North America

→ Steppes in Russia

3. The park near your house has a large lawn with grass growing in it. Can it be called a grassland? Why?

Ans- The park near our house has a large lawn with grass growing in it. It can't be called a grassland because the lawn has not grown naturally. Someone must've planted it. Real grasslands grow naturally.

HW
